Day Five until FINISH OF PRODUCT:

First, apply the Instant Lifting Serum. Apply a nickel sized amount onto your fingers and massage directly onto your specific problem areas. (crows feet, frown lines, etc.) Next measure a nickel sized amount of Age Defying Serum on the tip of your finger. Carefully apply onto targeted areas. The Third step is a generous application of the Wrinkle Smoothing Cream to the entire face and problem areas. This seals in the active ingredients of the serums with deep-penetrating moisture. You should see a dramatic reduction in wrinkles within five minutes. Do not wash face for at least two hours after applying. Repeat this process again before bed time.
